

PF-P280 Automatic Paper Folding Machine

The Standard PF-P280 paper folder is a specialty folding machine that is designed for use at schools and churches where simple folds are required. The only fold this machine can create in one pass is a single fold. Additional folds require additional passes through the machine. The motor runs at a speed of 190 sheets per minute (What does this mean?). We have a low-price guarantee on all our paper folders. Order your Standard PF-P280 today!

Features

- Features a single sheet test feed button to assist the operator during set-up.
- Economical, simple, quiet, and compact.
- Any fold that is not a single fold will require multiple passes through the folder.
- Passing paper through a second time allows you to create Z-folds, as well other folds.
- The fold feed rollers are easily accessed and removed for cleaning without the need for tools.
- This folder does not work with glossy paper, for glossy paper folding check out our air feed paper folders.
