

PF-P310 Automatic Paper Folding Machine

The Standard PF-P310 is designed to quickly create up to five standard paper folds. This paper folder is commonly used in schools, churches, copy shops and other businesses. The motor runs at a speed of 190 sheets per minute (What does this mean?). Dials allow you to “dial-in” the fold you need to do. Once a fold has been selected, lights indicate where the folding plates need to be set using the dials. Once the fold has been dialed in, the folding process can begin. We have a low-price guarantee on all our paper folders. Order your Standard PF-P310 paper folder today!

Features

- You can easily change the feed roller and double-sheet-feed stop pad.
- Compact and low-cost, the PF-P310 is easy to operate.
- You can set up manually for special paper sizes or fold styles.
- Choose from four preset sheet sizes and six automatic fold formats.
- This folder does not work with glossy paper, for glossy paper folding check out our air feed paper folders.
- You can even produce a 12-page broadsheet fold by cross folding through a second pass.
