

PF-P320 Automatic Paper Folding Machine

The Standard PF-P320 is an automated version of the PF-P310 that has six pre-programmed folds that can be accessed through the button panel interface. The motor runs at a speed of 250 sheets of paper per minute (What does this mean?). The compact design of the fold plates means that it takes up little surface space. The PF-P320 can hold up to 125 sheets of paper and can fold up to 70-pound paperweight. When rollers wear out, they can be easily accessed and replaced. We have a low-price guarantee on all our paper folders. Order your Standard PF-P320 today!

Features

- Memory function which stores the folding data for special sheet sizes through the ten-key input.
- The operation procedures are indicated on the liquid crystal display.
- It has six popular preset fold styles available at the touch of a button.
- In addition, the folding rollers can be effortlessly replaced without any tools.
- This folder does not work with glossy paper, for glossy paper folding check out our air feed paper folders.

A simple operation by placing a sheet of paper stock to be folded on the sheet pile table and selecting your sheet size and folding pattern enable you to set up the machine operation. The entire machine is so simply designed for easy maintenance that you can change the feed roller and double sheet feeding stop pad with quite ease.
