Better Buys for Business Cites WorkCentre Pro 40 as 'Editor's Choice'

The WorkCentre Pro 40, an advanced color multifunction system that copies, prints, scans and faxes, was chosen for its strong print performance and ability to serve both color and black-and-white printing needs. Better Buys for Business evaluates products from all major office equipment manufacturers, in addition to researching customer and dealer feedback. The evaluations include a combination of hands-on testing, user surveys and worldwide visits to manufacturing facilities and trade shows. The awards are published in the 2004 Color Copier Buyer's Guide and the 2004 Office Laser Printer Guide.
